SUMMARY

I'm a web developer with 10 years of experience. I started my career as a backend developer and gradually changed my focus to frontend development, because I love UX and building user interfaces.

TECH SKILLS

- MAIN SKILLS: Javascript, Typescript, HTML, CSS, React, axios, REST API, webpack, git and npm/yarn.
- I HAVE EXPERIENCE WITH: Redux, Redux Toolkit, react-router, react-intl, OpenLayers, styled-components, Jest, Testing Library, SASS, Material UI, Bootstrap, NextJS, ASP.NET, C#, Java, Figma, Jira, Bitbucket, Kanban and Scrum.
- I HAVE BASIC KNOWLEDGE OF: GraphQL, PHP, NodeJS and Adobe Illustrator.

SOFT SKILLS

- Good communication skills.
- Focused on solving problems.
- Flexible: I'm not afraid to leave my comfort zone to help or learn.
- A native Portuguese speaker with an advanced English level and currently learning Dutch.
- Team work spirit.
- Mind open and respectful.
- I take responsibility for my actions and I'm not shy to admit my mistakes.

WORK EXPERIENCE

Frontend Engineer | Feb. 2023 to current date | Cyclomedia B.V.

Working in the Streetsmart web application, I helped update React 16 to 18, creating new features and fixing bugs.

- Working with scrum doing dailies, refinements, planning and retros.
- Re-writing class components to be functional components with Typescript.
- Creating new features based on PO description.
- Fixing bugs and removing code-smells.

Senior Frontend developer | Feb. 2021 to Feb. 2023 | Paraná Banco

Working with 3 solutions, one that I helped to create from scratch. I helped to build the loan portability process for one of our solutions and updated the legacy interfaces with the new design system. In addition to working on my team's projects, I help to keep the component library up to date.

- Working with scrum doing dailies, refinements and reviews.
- Working with React and JavaScript to create new features, fixing bugs, doing code reviews and updating testing cases.
- Doing meetings with the UX team to define new features and using the design system to update interfaces.
- Doing monthly meetings with the frontend chapter to discuss new technologies, ideas and project standards.
- Executing applications builds in the homologation and production environment.

Frontend developer | Jan. 2019 to Feb. 2021 | Agrotis

Working on the grain storage module fixing bugs and creating new features, I helped to create the services pricing functionality, updated legacy code written in classes for functional components with hooks and helped in the process of adding typescript.

- Using Kanban to manage tasks, doing dailies, refinings and reviews.
- Updating legacy code with the new React features, old Javascript with ES6, fixing bugs and doing code reviews.
- Using the new design system for creating new components. Updating the Agrotis component library with

new features, components and fixing bugs.

- Using Redux to control application global state and removing Redux when is not needed.

Full Stack Developer | Sep. 2014 – Sep. 2015 | PrimeLan Tecnologia

At Primelan I was responsible for creating websites by demand following the web standards and web apps that integrate with WIFI equipment for user authentication. I also created Vitória Online, the official android application for Vitória (ES) city.

Full Stack Developer | Nov. 2012 – Sep. 2014 | Megawork

I helped to build a suppliers pricing application which integrates with SAP. Later I worked building web sites, applications and reports that read data from SAP.

.Net Developer | Feb. 2012 – Nov. 2012 | Phidelis Tecnologia

As a .Net developer, I worked on a web application for managing schools and universities, fixing bugs, creating custom features, doing code reviews and training users to use the platform.

.Net Developer | Jul. 2011 – Feb. 2012 | Superius Consultoria LTDA

At Superius, I was part of a team that was building ERP application using .Net 3.0, C#, DevExpress, Entity Framework and SqlServer.

Junior .Net Developer | Jan. 2010 – Jul. 2011 | Vixtime

At Vixtime I helped to build a News application and News website for the ESHoje, I worked on creating CMS systems and websites by demand following the W3C standards.
