SUMMARY

I'm a web developer with 8 years of experience. I started my career as a backend developer and gradually changed my focus to frontend development, because I love UX and building user interfaces.

TECH SKILLS

- FRONTEND: HTML, CSS, SASS, Javascript, Typescript, React, Redux, React-router, React-intl, styled-components, fecth, axios, Material UI and Bootstrap.
- BACKEND: .NET/C#, PHP and Node JS.
- TESTING: Jest and react-testing-library.
- OTHERS: webpack, yarn, npm, Adobe Illustrador, Figma, Git, Bitbucket, Jira and Microsoft Azure.
- Experience working in agile teams with Kanban and Scrum.

SOFT SKILLS

- Good communication skills.
- Focused on solving problems.
- Flexible: I'm not afraid to leave my comfort zone to help or learn.
- A native Portuguese speaker with an advanced English level.
- Team work spirit.
- Mind open and respectful.
- I take responsibility for my acts and I'm not shy to admit my mistakes.

WORK EXPERIENCE

Senior Frontend developer | Oct. 2021 to current date | Paraná Banco

I work in a team that maintains 3 solutions. I created a project to attract new customers and helped to create the loan portability process. In addition to working on my team's projects, I help to keep the component library up to date.

- Working with scrum doing daylies, refinings and reviews.
- Working with React and JavaScript to create new features, fixing bugs, doing code reviews and updating testing cases.
- Doing meetings with UX team to define new features and using the design system to update interfaces.
- Doing month's meeting with the frontend chapter to discuss new technologies, ideas and project standards.
- Executing applications builds in the homologation and production environment.

Frontend developer | Apr. 2020 to Oct. 2021 | Agrotis

Working on the grain storage module fixing bugs and creating new features, I helped to create the services pricing functionality, updated legacy code written in classes for functional components with hooks and helped in the process of adding typescript.

- Using Kanban to manage tasks, doing daylies, refinings and reviews.
- Updating legacy code with the new React features, old Javascript with ES6, fixing bugs and doing code reviews.
- Using the new design system for creating new components. Updating the Agrotis component library with new features, components and fixing bugs.
- Using Redux to control application global state and removing Redux when is not needed.

Full Stack Developer | Sep. 2014 – Feb. 2016 | PrimeLan Tecnologia

At Primelan I was responsible for creating web sites by demand folowing the web standards and web apps that integrate with WIFI equipment for user authentication. I also created the Vitória Online, the official android application for Vitória (ES) city.

Full Stack Developer | Nov. 2012 – Sep. 2014 | Megawork

I helped to build a suppliers pricing application which integrates with SAP. Later I worked building web sites, applications and reports that read data from SAP.

.Net Developer | Feb. 2012 – Nov. 2012 | Phidelis Tecnologia

As .Net developer, I worked on a web application for managing schools and universities, fixing bugs, creating custom features, doing code reviews and training users to use the platform.

.Net Developer | Jun. 2011 – Feb. 2012 | Superius Consultoria LTDA

At Superius, I was part of a team that was building ERP application using .Net 3.0, C#, DevExpress, Entity Framework and SqlServer.

Junior .Net Developer | Jan. 2010 – Jul. 2011 | Vixtime

At Vixtime I helped to build a News application and News website for the ESHoje, I worked on creating CMS systems and websites by demand following the W3C standards.
